RE: Docket Number TM-05-02

I am writing to support the proposed amendment to 7 CFR part 205, subpart G of the National Organic Program as published in the Federal Register Vol. 70, No. 145 on July 29, 2005. I am a consulting poultry nutritionist currently responsible, on an annualized basis, for the diet formulations of approximately six (6) million organically grown broilers. I am in agreement with and support the comments as outlined in Supplementary Information: II. Overview of Proposed Amendment. I urge Secretary of Agriculture Mike Johanns to approve this proposal rule.

Sincerely yours,

Paul V. Twining, Jr., Ph.D, P.A.S, Diplomat ACAN
